For Those Who Wait words & music: Richard Walton

As I walk in from the rain, I don't feel no pain
'Til it's got control over me before I knew
I was patiently aware, now I don't even care
'Cause your love has found a way to see it through

'Cause you are so good
You are so good
God is so good for those who wait

You had left to find me here, and took away my fear
Of the love we have so close and deep inside
It's a never ending love and it echoes from above
To this beating heart so close and deep inside

'Cause you are so good
You are so good
God is so good for those who wait

If there is something that you need
It will come to you in time
In grace
In faith

It's not fortune or the fame or the power and the gain
That can take away the sadness in your heart
It's a never ending love and it echoes from above
To this beating heart so close and deep inside

'Cause you are so good
You are so good
God is so good for those who wait
For those who wait
For those who wait
For those who wait
