You Are With Us (Richard Walton / Kathryn Turyna / Laurence Baer)

Your love has no limit, Your love has no end
You're here with us always
As Father and Friend, Father and Friend

You made the great oceans, the stars and the sky
Your beauty surrounds us
Glory to God, God on high

From every mountain to every ocean
Let the stars magnify Your greatness
As the heavens declare Your majesty
You are here, You are with us
You are here, You are with us

Your mercy is infinite, without any end
You pour out Your grace
Again and again, again and again

From every mountain to every ocean
Let the stars magnify Your greatness
As the heavens declare Your majesty
You are here, You are with us
You are here, You are with us

Thank You, Thank You, Thank You, Thank You

From every mountain to every ocean
Let the stars magnify Your greatness
As the heavens declare Your majesty
You are here, You are with us
You are here, You are with us
