Autumn Brown (Richard Walton / Joseph Spatarella / Laurence Baer)

Leaves, leaves falling down
Bring a coat of autumn brown
And all, all that I view
Reminds me of the season that brought me to You

Autumn brown, I love that sound
As the leaves swirl round and round, autumn brown

Frost, frost in the air
All of the trees soon will be bare
Their leaves blanket the ground
Like the warmth of autumn brown

Autumn brown, I love that sound
As the leaves swirl round and round, autumn brown

Its part of God's amazing plan
Every since the time began
This swirling dance of seasons
That fills the air

Grey clouds fill the sky
And birds will spend their wings and fly
Seeing the world from above
Keeps me grounded in Your love

Autumn brown, I love that sound
As the leaves swirl round and round, autumn brown
