# The Rock (words & music: Tecla & Richard Walton)

So many thirsty people, everywhere, looking for water
Deep in despair
Trying hard to get by, everyday, searching for answers,
In their own way

Well I was there, you might be there
You know Moses felt the same
Don't despair, God is there
He knows our fear and pain
He's just waiting, for us to obey Him**,** go to the rock

So many hungry people, everywhere, searching for manna
In a world of despair
Trying hard to make it, day to day, looking for shelter
In their own way

Well I was there, you might be there
You know David felt the same
Don't despair, God is there
He knows our fear and pain
He's just waiting, for us to obey Him**,** go to the rock

The rock gave us the water, now all we have to do
Is drink it up, drink it up

Well I was there, you might be there
You know Moses felt the same
Don't despair, God is there
He knows our fear and pain
He's just waiting, for us to obey Him**,** go to the rock
